1. Drug addiction is a common problem all over the world today. There are many forms of drug addiction, but the most dangerous of all is the absolute dependence on it. Long-term use of drugs causes permanent mental and physical sickness. The more dangerous a substance is used the more risky it becomes. Its continuous use causes total dependence on the drug. Some kinds of drugs that cause disturbance of mind and body are heroin, marijuana, tobacco, valium, cocaine and alcohol.

پوری دنیا میں منشیات کی لت ایک عام مسئلہ ہے۔ منشیات کی لت کی کئی اقسام ہیں، لیکن سب سے زیادہ خطرناک اس پر مکمل انحصار کرتا ہے۔ منشیات کا طویل مدتی استعمال مستقل ذہنی اور جسمانی بیماری کی وجہ بنتا ہے۔ جتنا خطرناک مواد اس میں استعمال ہوتا ہے یہ اتنا ہی خطرناک بن جاتا ہے۔ اس کا مسلسل استعمال مکمل طور پر اسی کا عادی بنا دیتا ہے۔ منشیات کی جو اقسام ذہنی اور جسمانی الجھاؤ کا سبب بنتی ہیں ان میں ہیروئن، بھانگ، تمباکو، ولیم کوکین اور شراب ہیں۔

2. Drug addiction is caused by environmental factors. A few important environmental factors that may cause drug addiction are bad peer influence and troubled domestic background. When young people remain in bad company and do experiments in the name of adventure, they might fall a prey to addiction. The people who are dissatisfied and discontented with their lives may also resort to drug addiction in order to seek an escape from responsibilities of life.

منشیات کی لت ماحولیاتی عوامل کی وجہ سے وقوع پذیر ہوتے ہیں۔ چند ایک اہم ماحولیاتی عوامل جو کہ منشیات کی عادت کا سبب بنتے ہیں ان میں ہم عمر لوگ اور پریشان کن گھریلو حالات ہیں۔ جب نوجوان لوگ بری صحبت میں رہیں گے اور جرأت کے نام پر تجربات کریں گے تو وہ نشہ کی عادت کا شکار ہو جاتے ہیں۔ جو لوگ اپنی زندگیوں سے ناخوش اور غیر مطمئن ہوتے ہیں وہ زندگی کی ذمہ داریوں سے چھٹکارا حاصل کرنے کے لیے منشیات کے عادی بن جاتے ہیں۔

3. The most important measure to be taken in this regard is the rehabilitation and recovery of the drug addict. In many countries including Pakistan, abusers, their families and friends consider it a taboo to talk about their problem with others. They feel embarrassed to talk about it for fear of being declared an outcast. This not only makes the cure difficult but in most cases the addicts die due to lack of in time treatment and counseling.

اس سلسلے میں سب سے اہم قدم جو اٹھانے کی ضرورت ہے وہ منشیات کے عادی لوگوں کی آباد کاری اور انہیں صحت مند بنانا ہے۔ پاکستان سمیت بہت سے ممالک میں، ناجائز استعمال والے لوگ، ان کے خاندان والے اور ان کے دوست ان لوگوں کے مسائل کے بارے میں دوسرے لوگوں سے بات کرنا معیوب سمجھتے ہیں۔ وہ اس خوف سے کہ انہیں اپنی ذات سے باہر نہ کر دیا جائے، اس معاملے پر بات کرنا انتہائی پریشان کن صورت خیال کرتے ہیں۔ یہ بات نہ صرف علاج کو مشکل کر دیتی ہے بلکہ بہت سے موقعوں پر عادی لوگ بروقت علاج اور صلاح مشورہ نہ ملنے کی وجہ سے جان گنوا بیٹھتے ہیں۔

4. Rehabilitation centers are the best places for the control and recovery process. These centers look after them. Complete medical support and guidance is provided to these people in these centers. Drug abusers, therefore, must be taken

to proper and certified rehabilitation centers where proper treatment and cure is available for them. However, this involves rapid identification of the problem of drug addiction and total cooperation of the sufferers with the team of these centers.

بھالی کے مراکز قابو پانے اور صحت یابی کے لیے بہترین مقامات ہیں۔ یہ مراکز ان کی دیکھ بھال کرتے ہیں۔ ان مراکز میں ان لوگوں کو مکمل طبی مدد اور رہنمائی فراہم کی جاتی ہے۔ لہذا منشیات کا ناجائز استعمال کرنے والے لوگوں کو مناسب اور مصدقہ بھالی کے مراکز پر لے جایا جاتا ہے، جہاں ان کے لیے مناسب علاج اور بہتری کے مواقع میسر ہیں۔ تاہم اس میں منشیات کی لت کے مسئلہ کی تیزی سے شناخت اور ان کی ٹیم کے ساتھ متاثرین کی ٹیم کا مکمل تعاون شامل ہے۔

5. The other factor that contributes in rehabilitation of the drug victim is proper counseling. The sooner it is done the better it is for the victim. The counseling process must continue even after the drug abuser is rehabilitated because of the dangers of a relapse. Doctors, family and friends must continue to critically watch and counsel the victim for better motivation and adjustment.

متاثرین کی بھالی میں دوسرے مشاوراتی عناصر مناسب کردار ادا کرتے ہیں۔ جتنا جلدی یہ کام کر لیا جائے متاثرہ کے لیے اتنا ہی بہتر ہے۔ متاثرہ افراد کی بھالی کے عمل کے بعد بھی مشاورت کا عمل جاری رہنا چاہیے تاکہ خطرات دوبارہ نہ پیدا ہو سکیں۔ متاثرہ کی بہتر ترغیب اور تصحیح کے لیے اس کے ڈاکٹروں، خاندان اور دوستوں کو اس کی مسلسل سخت نگرانی اور مشاورت کرنی چاہیے۔

6. Drug addiction is really a very serious threat for any society. In Pakistan alone there are almost five million drug addicts. Addicts undergo numerous economic, social and health problems. The governments all over the world have been trying to eliminate drug addiction from society but still more efforts are needed to completely wipe it out. This can only be made possible if the people become increasingly aware of the threats that drugs pose. They vow firmly to live a healthy and meaningful life.

منشیات کی لت واقعی کسی بھی معاشرے کے لئے ایک بہت ہی سنگین خطرہ ہے۔ صرف پاکستان میں تقریباً پانچ ملین منشیات کے عادی افراد ہیں۔ نشے کے عادی افراد کو معاشی، سماجی اور صحت کے بہت سے مسائل سے گزرنا پڑتا ہے۔ دنیا بھر کی حکومتیں معاشرے سے منشیات کی لت کو ختم کرنے کی کوششیں کر رہی ہیں لیکن ابھی بھی اس کو مکمل طور پر ختم کرنے کے لیے بہت سی کوششیں کرنا باقی ہیں۔ اس کو صرف اسی صورت میں ممکن بنایا جاسکتا ہے کہ لوگ منشیات سے لاحق خطروں سے تیزی سے واقفیت حاصل کر لیں اور وہ ایک صحت مند اور بامعنی زندگی گزارنے کا وعدہ کر لیں۔

Drug Abuse, a Threat to Society

Drug abuse is the type of problem that affects more than the person who is abusing the drug. It is a far-reaching issue that has stretched out to families around the country. This is a problem that cannot be ignored.

Drug Abuse is a great threat to any society. It is a great curse. It is very harmful for human health. Countless people die every year because of drug abuse. It is an international problem. People involved in this atrocious business are so strong that they have organized a group called, "Drug. Mafia".

People in this category find themselves addicted to either illicit drugs or prescription medications. There are drugs in both categories that are highly addictive. Drug use is chronic or done on a regular basis which leads to the addiction. Side effects can cause lasting damage to the body of the abuser.

Our society suffers as many as 527,000 visits each year because of drug abuse. Families and businesses in Pakistan have been destroyed because of the abuse of drugs. This is one of the reasons that drug testing has become so critical in the hiring process. Understanding the threats of drugs is very important, in providing users with practical deterrents.

Causing physical harm to others

Alcohol is one of the most common drugs abused in the entire state of Pakistan. It is the drug of choice for most teens that are addicted. Drunk drivers are responsible for the physical harm and death of thousands every year. The threat that these drivers provide affects everyone that is on the road with them.

Damage to business reputation

Businesses that hire people who suffer from drug abuse often feel the effects. They, in some case, experience damaged reputations as a result of these employees. In other cases, the damage may cause a reduction in profits for the business. Construction workers and food service workers are some of the top fields of drug abusers in the workplace.

Health concerns burden society

Drug abuse is responsible for many of the health concerns that users experience. Reports that cocaine is a serious problem in the state. It is responsible for the most emergency room visits, drug-related discharges, and mortality rates per 100,000 of the population. Medication costs for drug users tend to be 2 times that of a normal person. Drug abuse continues to make The War on Drugs relevant in this state. The ages of drug users is getting younger and younger.

For The Teacher:

- Help students first make a mind map to develop focus for their writing.
